Beth (Ashford) Rose, Owner

We are living and operating in new, uncharted waters!
The COVID-19 outbreak has reminded us all just how fragile we humans truly are, and how important relationships are. At ISS-KY, we treasure and celebrate our employees and our customers! We have implemented a comprehensive program throughout our operations, including routine disinfection of all common areas, social distancing practices, and establishing work-from-home policies and procedures wherever practical. While ensuring that we're ever vigilant in supporting our customers' critical operations.

***At ISS-KY, we're small enough to (truly) care, but large enough to serve!
We'll be here when you need us!***
